

XYLOPHONE NOTE LOCATION CHART

The Xylophone sounds one octave higher than written.

The chart displays two musical staves. The top staff shows notes written in treble clef, and the bottom staff shows notes written in bass clef. Vertical dashed lines connect these notes to the corresponding bars on a xylophone. Each bar is labeled with its letter name (A through C) and its enharmonic equivalents (sharps and flats). The notes are arranged in ascending order from left to right across the xylophone.
